Allah's Gifts is Greenbird Book's first children's picture book containing no facial images. We always strive to meet our reader's needs and are especially proud to publish our first in this range. The purpose of this book is to teach children Islamic morals and appreciation of non materialistic gifts of the world. Children will be able to discover and appreciate the many gifts that Allah (God) has given us in the world today from little things such as the ability to see, hear and talk. Some people in this world do not have the benefits that many of us have and this book teaches good morals to nurture Islamic values within our children. Gifts are often associated with materialistic things so there is an emphasis here on spiritual blessings to redress the balance for children. Allah's Gifts explores the many benefits we are given in this world in an engaging way.
